

SmartFarmer - IoT Enabled Smart Farming Application

Team Id : TNT2022TMID22759

The screenshot shows the IBM Cloud catalog page for the Internet of Things Platform. The page is titled "Internet of Things Platform" and includes a description: "This service is the hub of all things IBM IoT, it is where you can set up and manage your connected devices so that your apps can access their live and historical data." The page has two tabs: "Create" and "About". The "Create" tab is active, showing a "Select a location" dropdown menu with "Frankfurt (eu-de)" selected. Below this is a "Select a pricing plan" section with a table of plans. The table has three columns: Plan, Features, and Pricing. The "Lite" plan is selected, showing features like "Includes up to 500 registered devices, and a maximum of 200 MB of each data metric" and "Maximum of 500 registered devices". The pricing is "Free". On the right side, there is a "Summary" panel showing the service name, location, plan, and resource group. A warning message states: "Existing Lite plan instance. You can have only 1 Lite plan instance of this service per resource group. Delete your current Lite plan instance in Default resource group to create a new one, or view the existing instance." At the bottom, there is a checkbox for "I have read and agree to the following license agreements:" and a "Create" button.
